Health Educator III
606-473-9838
Ext. 126
Cassiea.mace@ky.gov**

- We strive to protect the privacy and dignity of each participant.
- We also provide a private area for clients to meet with health department staff.
- Education regarding safe practices
- Narcan training and dispensing
- Confidential and anonymous exchange

Each participant will receive a white sharps container for used syringes and three latex condoms. For the first visit, each participant receives forty syringes, regardless of the number of used syringes returned. After the first visit, it's a one to one exchange (one clean syringe will be exchanged for one dirty, up to thirty syringes)

- Peer Support
- Referrals for clinic services such as vaccinations, sexually transmitted infection testing and treatment, referrals for inpatient or outpatient rehabilitation available
- Confidential testing for HIV and hepatitis C
